INNOVATIONS FOR IMPACT

Providing state-of-the-art telemedicine and point-of-care solutions. New innovations, New Products and New Accreditations Help Tech4Life Reach New Markets Around the World

Tech4Life awarded Top Telemedicine Company for 2020 by Global Health and Pharma, UK

Tech4Life Enterprises is proud to announce that we have been awarded the 'Most Innovative Telemedicine Solutions Design Company for the year 2020' by Global Health Pharma, UK. This award recognizes the efforts of our Health & Technology teams, along with the network of distributor and clients all over the world.

Sojro4Covid - Revolutionizing Telemedicine in the times of COVID-19 Pandemic

Need for Telemedicine has increased globally in the times of COVID-19, and health organizations are looking for integrated technologies to provide screening, diagnosis, triaging and monitoring services to patients near their homes. Also, due to over-burdening of hospitals and high risk for health providers, it is preferred to diagnose and treat all patients in the communities and small health facilities in rural and remote areas.

Sojro4Covid is a highly innovative Telemedicine kit, designed for screening and monitoring of patients in the community, along with conducting Telemedicine consultations using a range of telemedicine devices. Sojro4Covid is designed to ensure healthcare delivery by empowering health care providers and frontline health workers in remote conditions and home care environments. Sojro4Covid has been designed keeping both mobility and utility in different conditions in mind. The Telemedicine kit provides following services:

- Temperature monitoring using Infrared thermometer
- Oxygen Saturation using SpO2 probes
- Recording breath Sounds using Digital Stethoscope
- Vital Signs including Breath Sounds and ECG using Digital Vital Signs monitors.
- Live Consultations using the power of MDConsults Telemedicine Software
- Enhanced Telemedicine experience using Dermatology, ENT and Eye cameras along with Digital Stethoscope for live consultations.

All these devices are provided in a lightweight and portable kit, fully designed and integrated to carry out screening, consultations, and monitoring. Sojro4Covid has the flexibility of being used with a variety of connectivity options. It can utilize available 3G/4G for transmitting data or WiFi where available. Along with this, Sojro contains rechargeable lithium batteries to limit dependence on power sources in remote and disaster-hit areas.

eSteth continues to be the most successful Stethoscope sold on Amazon in North America

eSteth provides the range of digital and non-digital stethoscopes for all kinds of health providers around the world. A product of Tech4Life Enterprises, eSteth continues to grow because of its quality and affordability, which attracts health providers from all fields and specialties. Since the launch of eSteth on Amazon in April 2020, it has become the choice of customers looking for Classic, Cardio, Pediatric or Digital Stethoscopes. eSteth has recorded 300% growth in the past six months, repeatedly becoming Amazon's choice for Stethoscopes. The clients have rated eSteth more than 4.5 out of 5 and have compared it with the top brands of stethoscopes. eSteth has also been launched on Amazon in UK, France, Germany, and Spain. We hope that it will soon become the most popular brand in Europe as well.

Reviews from Verified Customers on Amazon

Affordable, quality piece of equipment. Highly recommended
This product is amazing. I want to send a sincere thank you to the company. You are providing people with the equipment they need at a price that is manageable.

Completely satisfied with this purchase!!!!
This quality of the stethoscope has blown me away!! I purchased it after reviewing many others and as a respiratory therapist for the last 10 years I've used my fair share of stethoscopes, but I never imagined I'd be able to purchase a Littmann quality scope for the 1/5 of the Littmann price. I've already shared my find with many of my co workers who have already placed their orders for their own.

Works well and affordable
I love the price.
I love the color.
Works well listening to heart rate and respiration.

Would buy again.
Works good. Purchased a red one, the colour really pops.

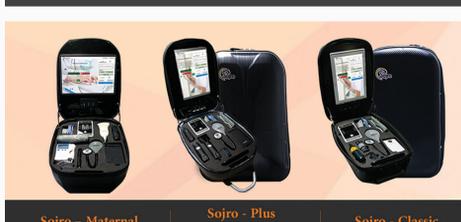

Quality stethoscope
Excellent sound quality, nicely made and comes with two extra pairs of buds.

Excellent Stethoscope
Excellent Quality. Definitely recommend to others. I am internist and used many variety of stethoscopes in the past and definitely this one is of great standard at good price.
